

Making goals a reality through valuable sober-living program

Program and atmosphere of the homes

Each home has a unique aura and personal design that evolves from the residents:

- Individual space for food and personal items.
- Twin sized beds in a shared room; bedding available if needed.
- Wi-Fi, Direct TV and a landline phone are available.
- Washer and dryer in every home.
- The residents are encouraged to make their space and the house unique to them in order to feel most at home.
- Child friendly homes are available.

Who We Are

About Us

We are recovering alcoholics and addicts that support and guide other addicts in obtaining well-being through interactive sober-living homes.

HOFFMAN HALL SOBER LIVING HOMES , LLC

505 Tennessee NE # A

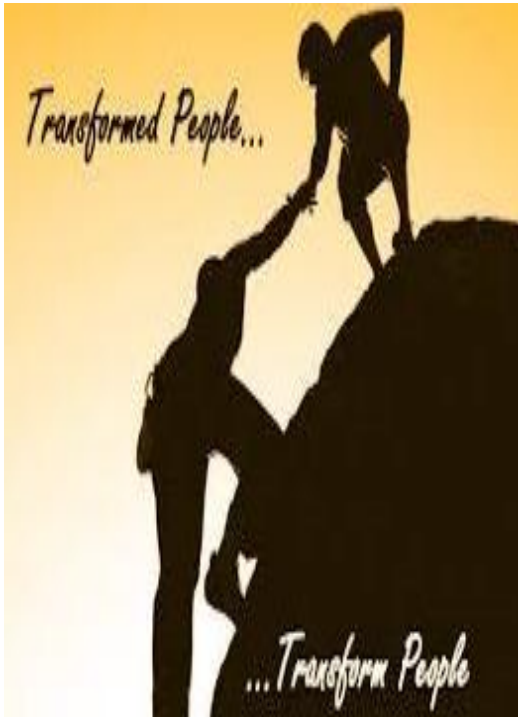

Albuquerque, NM 87108

**SUPPORTIVE
SOBER-LIVING
HOMES**

**A unique
program unlike
any other in
Albuquerque,
NM**

*Fostering recovery through
positive support and structure*

What we do

The mission of Hoffman Hall is to build men and women up from the enduring battle with addiction through a collaborative, structured, safe, and sober home environment. Residents are provided the opportunity to become involved in service work which will ultimately foster the skills necessary to become independent, productive members of society. With a success rate of 80% and the inclusion of wrap-around services, Hoffman Hall residents are able to develop self-efficacy and advocate for their long-term recovery and well-being.

Wrap-Around Services

Residents are accepted from all walks of life. We advocate for achieving balance through setting and obtaining meaningful goals. Also, if they arrive with nothing, Hoffman Hall will help them obtain: Food, Clothing, Birth Certificates, IDs, SNAP Benefits, and Job Development & Placement.

"I have the support of the Hoffman Hall family to provide safety and guidance; giving me the confidence to reach my goals in a life of recovery."

Mental Health Needs

Assessments, individual and group counseling, intensive outpatient, psychotropic medication, and vocational rehabilitation.

Medical Needs

Assistance applying for Medicaid/Medicare, SSI/SSDI, setting up medical transportation, and assistance with locating a primary care physician that will meet the residents' needs, and handicap accessible homes are available.

The path to recovery is only a matter of changing your direction

Improving lives through structure and support..

Character Building

Residents are provided the opportunity to strengthen their success in recovery through structure and accountability. Service positions are available which encourage a sense of respect for self and others. Leadership skills are gained through supportive guidance which in-turn provide healthy role-models for newly sober residents.
